SUMMARY

I have been working with web development since 1st Jan 2020 ,the period during which I have worked in different environments, companies to start-ups. I am a self-motivated and self-taught professional who likes to solve problems.

I merge a passion for usability and user experience with technical knowledge to create cool digital experiences. My repertoire includes programming languages and tools such as ReactJS, Firebase, MongoDB ,MySQL, Apache
server configuration, SASS, Twitter Bootstrap, Ant Design, Material UI, .

EXPERIENCE

React Developer (8 Months)

Socwise Technologies Pvt. Ltd.

01/02.2020 - 10/10/2020 Meerut

As the first developer to integrate the team in this greenfield project, my goal is to create interfaces for our new product utilizing *ReactJS + CSS, using REDUX/REDUX SAGA* as our state management system . The main focus is to create reusable components that could be used in future projects by the team.

- Use my extensive experience with front end development to define the structure and components for the project, making sure they are reusable.
- Keep the code quality high reviewing code from other developers and suggesting improvements.
- Interact with the designer to suggest changes and to make sure the view he has about the design is translated into actual functionality.
- I m writtern backend code also using nodejs and Firebase.
